

Industry Experts Shed Light on Globalization and Middle Market M&A at ACG Los Angeles

WHAT: The 2009 ACG Los Angeles Business Conference

WHERE: The Beverly Hilton Hotel, Los Angeles

WHEN: September 15-26, 2009

The ConJoin Group, LLC, an investment firm specializing in funding transformations of underperforming assets, will be discussing best practices and industry trends in a panel discussion, Globalization and Middle Market M&A on Wednesday, September 16, 2009 at 10:00 a.m. PST in the International Terrace room.

Panelists will include:

- Richard S. Garnick, Founder & Chairman of The ConJoin Group
- Brooks Dexter, Managing Director of Duff & Phelps, LLC
- Randall A. Mehl, CFA, Partner of Baird Capital partners
- Moderator: Thomas M. Cleary, Partner of Sonnenschein

ConJoin group is a pioneer in developing the 4th Generation Global Services Model™ which integrates capital formation, strategic leadership, business process consulting and leverages a global delivery model to transform assets into high value entities.

About 2009 ACGLA Business Conference

The 2009 ACGLA Business Conference is a premier conference for deal-making plans. Network opportunities with decision-makers from across the country and internationally will be abundant and there will be more than 130 private equity funds, hedge funds and other capital sources. Speakers from industry, public policy and research will be heard: Paul Volcker (Chairman of President Obama's Economic Recovery Advisory Board, and former Chairman of the Federal Reserve), Condoleezza Rice, Christopher Cox (Chairman of the Securities and Exchange Commission 2005-2009, Partner in Bingham McCutchen LLP), William Bratton (Los Angeles Police Chief), and Lee Baca (Los Angeles County Sheriff). Exhibits and participation will be available in presentations provided through the Technical and Breakout sessions.

For more information on the conference, visit <http://www.acglaconference.com/>

About ConJoin Group, LLC

ConJoin Group, LLC transforms underperforming companies to realize demonstrable and accelerating value. The ConJoin model is based on improving a business's overall performance in an accelerated way by facilitating a true transformation of the business, utilizing vision creation, transformational leadership and experienced interim management along with cost optimization to make a rapid positive impact. This is a notable difference from earlier generations of BPO providers who were primarily focused on large-scale replacement of repetitive tasks with limited value-add beyond cost reduction. ConJoin serves markets not generally supported by existing global outsourcers, especially mid-market corporations considered too small by these global players.
